Homeowner Affordability and Stability Plan
Fact Sheet

The deep contraction in the economy and in the housing market has created devastating consequences for homeowners and communities throughout the country. Millions of responsible families who make their monthly payments and fulfill their obligations have seen their property values fall, and are now unable to refinance to lower mortgage rates. Meanwhile, millions of workers have lost their jobs or had their hours cut, and are now struggling to stay current on their mortgage payments. As a result, as many as 6 million families are expected to face foreclosure in the next several years, with millions more struggling to stay current on their payments.

The present crisis is real, but temporary. As home prices fall, demand for housing will increase, and conditions will ultimately find a new balance. Yet in the absence of decisive action, we risk an intensifying spiral in which lenders foreclose, pushing home prices still lower, reducing the value of household savings, and making it harder for all families to refinance. In some studies, foreclosure on a home has been found to reduce the prices of nearby homes by as much as 9 percent – creating the potential that even borrowers who make every payment suffer from an increase in foreclosures in their community.

The Obama Administration's Homeowner Affordability and Stability Plan *will offer assistance to as many as 7 to 9 million homeowners* making a good-faith effort to stay current on their mortgage payments, while attempting to prevent the destructive impact of foreclosures on families and communities. It will not provide money to speculators, and it will target support to the working homeowners who have made every possible effort to stay current on their mortgage payments. Just as the American Recovery and Reinvestment Act works to save or create several million new jobs and the Financial Stability Plan works to get credit flowing, the Homeowner Affordability and Stability Plan will support a recovery in the housing market and ensure that these workers can continue paying off their mortgages.

By supporting low mortgage rates by strengthening confidence in Fannie Mae and Freddie Mac, providing up to 4 to 5 million homeowners with new access to refinancing and enacting a comprehensive stability initiative to offer reduced monthly payments for up to 3 to 4 million at-risk homeowners, this plan – which draws off the best ideas developed within the Administration, as well as from Congressional housing leaders and Federal Deposit Insurance Corporation Chair Sheila Bair – brings together the government, lenders and borrowers to share responsibility towards ensuring working Americans can afford to stay in their homes.

Homeowner Affordability and Stability Plan

- 1. Refinancing for Responsible Homeowners Suffering From Falling Home Prices**
- 2. A Comprehensive \$75 Billion Homeowner Stability Initiative**
 - A Loan Modification Plan To Reach 3 to 4 Million Homeowners
 - Shared Effort with Lenders to Reduce Interest Payments
 - Incentives to Servicers and Borrowers
 - Clear and Consistent Guidelines for Loan Modifications
 - Required Participation By Financial Stability Plan Participants
 - Modifications of Home Mortgages During Bankruptcy
 - Strengthen Hope for Homeowners and Other FHA Loan Programs
 - Support Local Communities and Help Displaced Renters
- 3. Support Low Mortgage Rates by Strengthening Confidence in Fannie Mae and Freddie Mac**

THE WHITE HOUSE

Washington

February 18, 2009

1. **Provide Access to Low-Cost Refinancing for Responsible Homeowners Suffering From Falling Home Prices:**

- ***Provide the Opportunity for Up to 4 to 5 Million Responsible Homeowners Expected to Refinance:*** Mortgage rates are currently at historically low levels, providing homeowners with the opportunity to reduce their monthly payments by refinancing. But under current rules, most families who owe more than 80 percent of the value of their homes have a difficult time securing refinancing. (For example, if a borrower's home was worth \$200,000, he or she would have limited refinancing options if he or she owed more than \$160,000.) Yet millions of responsible homeowners who put money down and made their mortgage payments on time have – through no fault of their own – seen the value of their homes drop low enough to make them unable to access these lower rates. As a result, the Obama Administration is announcing a new program that will provide the opportunity for 4 to 5 million responsible homeowners who took out conforming loans owned or guaranteed by Freddie Mac and Fannie Mae to refinance through the two institutions over time.
- ***Reducing Monthly Payments:*** For many families, a low-cost refinancing could reduce mortgage payments by thousands of dollars per year. For example, consider a family that took a 30-year fixed rate mortgage of \$207,000 with an interest rate of 6.50% on a house worth \$260,000 at the time. Today, that family has \$200,000 remaining on their mortgage, but the value of that home has fallen 15 percent to \$221,000 – making them ineligible for today's low interest rates that generally require the borrower to have 20 percent home equity. Under this refinancing plan, that family could refinance to a rate near 5.16% – reducing their annual payments by over \$2,300.

2. **A \$75 Billion Homeowner Stability Initiative to Prevent Foreclosures and Help Responsible Families Stay in Their Homes:** The Treasury Department, working with the GSEs, FHA, the FDIC and other federal agencies, will undertake a comprehensive multi-part strategy to prevent millions of foreclosures and help families stay in their homes. This strategy includes the following five features:

- ***A Homeowner Stability Initiative to Reach Up to 3 to 4 Million At-Risk Homeowners***
- ***Clear and Consistent Guidelines for Loan Modifications***
- ***Requiring That Financial Stability Plan Recipients Use Guidance for Loan Modifications***
- ***Allowing Judicial Modifications of Home Mortgages During Bankruptcy When A Borrower Has No Other Options***
- ***Require Strong Oversight, Reporting and Quarterly Meetings with Treasury, the FDIC, the Federal Reserve and HUD to Monitor Performance***

THE WHITE HOUSE

Washington

February 18, 2009

- ***Strengthening FHA Programs and Providing Support for Local Communities***

A. ***A Homeowner Stability Initiative to Reach Up to 3 to 4 Million At-Risk Homeowners:***

This initiative is intended to reach millions of responsible homeowners who are struggling to afford their mortgage payments because of the current recession, yet cannot sell their homes because prices have fallen so significantly. In the current economy, in which 3.6 million jobs have been lost over the past 14 months, millions of hard-working families have seen their mortgage payments rise to 40 or even 50 percent of their monthly income – particularly if they received subprime and exotic loans with exploding terms and hidden fees. The Homeowner Stability Initiative operates through a shared partnership to temporarily help those who commit to make reasonable monthly mortgage payments to stay in their homes, providing families with security and neighborhoods with stability. This plan will also help to stabilize home prices for homeowners in neighborhoods hardest hit by foreclosures. Based on estimates concerning the relationship between foreclosures and home prices, with the average house in the U.S. valued around \$200,000, **the average homeowner could see his or her home value stabilized against declines in price by as much as \$6,000** relative to what it would otherwise be absent the Homeowner Stability Initiative.

Who the Program Reaches:

- ***Focusing on Homeowners At Risk:*** Anyone with high combined mortgage debt compared to income or who is “underwater” (with a combined mortgage balance higher than the current market value of his house) may be eligible for a loan modification. This initiative will also include borrowers who show other indications of being at risk of default. Eligibility for the program will sunset at the end of three years.
- ***Reaching Homeowners Who Have Not Missed Payments:*** Delinquency will not be a requirement for eligibility. Rather, because loan modifications are more likely to succeed if they are made before a borrower misses a payment, the plan will include households at risk of imminent default despite being current on their mortgage payments.
- ***Common Sense Restrictions:*** Only owner-occupied homes qualify; no home mortgages larger than the Freddie/Fannie conforming limits will be eligible. *This initiative will go solely to supporting responsible homeowners willing to make payments to stay in their home – it will not aid speculators or house flippers.*
- ***Special Provisions for Families with High Total Debt Levels:*** Borrowers with high total debt qualify, but only if they agree to enter HUD-certified consumer debt counseling. Specifically, homeowners with total “back end” debt (which includes not only housing debt, but other debt including car loans and credit card debt) equal to 55% or more of their income will be required to agree to enter a counseling program as a condition for a modification.

How the Program Works

THE WHITE HOUSE

Washington

February 18, 2009

- The Homeowner Stability Initiative has a simple goal: reduce the amount homeowners owe per month to sustainable levels. This program will bring together lenders, servicers, borrowers, and the government, so that **all stakeholders share in the cost** of ensuring that responsible homeowners can afford their monthly mortgage payments – helping to reach up to 3 to 4 million at-risk borrowers in all segments of the mortgage market, reducing foreclosures, and helping to avoid further downward pressures on overall home prices. The program has several key components:
 - i. **Shared Effort to Reduce Monthly Payments:** Treasury will partner with financial institutions to reduce homeowners' monthly mortgage payments.
 - The lender will have to first reduce interest rates on mortgages to a specified affordability level (specifically, bring down rates so that the borrower's monthly mortgage payment is no greater than 38% of his or her income).
 - Next, the initiative will match further reductions in interest payments dollar-for-dollar with the lender, down to a 31% debt-to-income ratio for the borrower.
 - To ensure long-term affordability, lenders will keep the modified payments in place for five years. After that point, the interest rate can be gradually stepped-up to the conforming loan rate in place at the time of the modification. *Note: Lenders can also bring down monthly payments to these affordability targets through reducing the amount of mortgage principal. The initiative will provide a partial share of the costs of this principal reduction, up to the amount the lender would have received for an interest rate reduction.*
 - ii. **"Pay for Success" Incentives to Servicers:** Servicers will receive an up-front fee of \$1,000 for each eligible modification meeting guidelines established under this initiative. Servicers will also receive "pay for success" fees – awarded monthly as long as the borrower stays current on the loan – of up to \$1,000 each year for three years.
 - iii. **Responsible Modification Incentives:** Because loan modifications are more likely to succeed if they are made before a borrower misses a payment, the plan will include an incentive payment of \$1,500 to mortgage holders and \$500 for servicers for modifications made while a borrower at risk of imminent default is still current.
 - iv. **Incentives to Help Borrowers Stay Current:** To provide an extra incentive for borrowers to keep paying on time under the modified loan, the initiative will provide a monthly balance reduction payment that goes straight towards reducing the principal balance on the mortgage loan. As long as the borrower stays current on his or her payments, he or she can get up to \$1,000 each year for five years.

THE WHITE HOUSE

Washington

February 18, 2009

- v. ***Home Price Decline Reserve Payments:*** To encourage lenders to modify more mortgages and enable more families to keep their homes, the Administration -- together with the FDIC -- has developed an innovative partial guarantee initiative. The insurance fund -- to be created by the Treasury Department at a size of up to \$10 billion -- will be designed to discourage lenders from opting to foreclose on mortgages that could be viable now out of fear that home prices will fall even further later on. This initiative provides lenders with the security to undertake more mortgage modifications by assuring that if home price declines are worse than expected, they have reserves to fall back on. Holders of mortgages modified under the program would be provided with an additional insurance payment on each modified loan, linked to declines in the home price index. These payments could be set aside as reserves, providing a partial guarantee in the event that home price declines -- and therefore losses in cases of default -- are higher than expected.

How It Will Be Effective

- ***Protecting Taxpayers:*** To protect taxpayers, the Homeowner Stability Initiative will focus on sound modifications. If the total expected cost of a modification for a lender taking into account the government payments is expected to be higher than the direct costs of putting the homeowner through foreclosure, that borrower will not be eligible. For those borrowers unable to maintain homeownership, even under the affordable terms offered, the plan will provide incentives to encourage families and lenders to avoid the costly foreclosure process and minimize the damage that foreclosure imposes on lenders, borrowers and communities alike. Moreover, Treasury will not provide subsidies to reduce interest rates on modified loans to levels below 2%.
- ***Counseling and Outreach to Maximize Participation:*** Under the plan, the Department of Housing and Urban Development will also make available funding for non-profit counseling agencies to improve outreach and communications, especially to disadvantaged communities and those hardest-hit by foreclosures and vacancies.
- ***Creating Proper Oversight and Tracking Data to Ensure Program Success:*** Fannie Mae and Freddie Mac will be responsible -- subject to Treasury's oversight and the Federal Housing Finance Agency's conservatorship -- for monitoring compliance by servicers with the program. Every servicer participating in the program will be required to report standardized loan-level data on modifications, borrower and property characteristics, and outcomes. The data will be pooled so the government and private sector can measure success and make changes where needed. Treasury will meet quarterly with the FDIC, the Federal Reserve, the Department of Housing and Urban Development and the Federal Housing Finance Agency to ensure that the program is on track to meeting its goals.
- ***Limiting the Impact of Foreclosure When Modification Doesn't Work:*** Lenders will receive incentives to take alternatives to foreclosures, like short sales or taking of deeds in lieu of foreclosure. Treasury will also work with the GSEs to provide data

THE WHITE HOUSE

Washington

February 18, 2009

on foreclosed properties to streamline the process of selling or redeveloping them, thereby ensuring that they do not remain vacant and unsold.

- B. **Clear and Consistent Guidelines for Loan Modifications:** A lack of common standards has limited loan modifications, even when they are likely to both reduce the chance of foreclosure and raise the value of the securities owned by investors. Mortgage servicers – who should have an interest in instituting common-sense loan modifications – often refrain from doing so because they fear lawsuits. Clear and consistent guidelines for modifications are a key component of foreclosure prevention.
- **Developing Clear and Consistent Guidelines for Loan Modifications:** Working with the FDIC, other federal banking and credit union regulators, the FHA and the Federal Housing Finance Agency, the Administration is in process of developing guidelines for sustainable mortgage modifications for all federal agencies and the private sector – bringing order and consistency to foreclosure mitigation. The guidelines will include detailed protocols for loss mitigation as well for identifying borrowers at risk of default; the Administration expects to announce these guidelines by Wednesday, March 4th
 - **Applying Guidelines Across Government and the Private Sector:** Treasury will develop uniform guidance for loan modifications across the mortgage industry by working closely with the FDIC and other bank agencies and building on the FDIC's pioneering role in developing a systematic loan modification process last year. The Guidelines – to be posted online – will be used for the Administration's new foreclosure prevention plan. Moreover, all financial institutions receiving Financial Stability Plan financial assistance going forward will be required to implement loan modification plans consistent with Treasury guidance. Fannie Mae and Freddie Mac will use these guidelines for loans that they own or guarantee, and the Administration will work with regulators and other federal and state agencies to implement these guidelines across the entire mortgage market. The agencies will seek to apply these guidelines when permissible and appropriate to all loans owned or guaranteed by the federal government, including those owned or guaranteed by Ginnie Mae, the Federal Housing Administration, Treasury, the Federal Reserve, the FDIC, Veterans' Affairs and the Department of Agriculture. In addition, these guidelines will apply to loans owned or serviced by insured financial institutions supervised by the Office of the Comptroller of the Currency, the Office of Thrift Supervision, the Federal Reserve, the Federal Deposit Insurance Corporation and the National Credit Union Administration.
- C. **Requiring All Financial Stability Plan Recipients to Use Guidance for Loan Modifications:** As announced last week, the Treasury Department will require all Financial Stability Plan recipients going forward to participate in foreclosure mitigation plans consistent with Treasury's loan modification guidelines.
- D. **Allowing Judicial Modifications of Home Mortgages During Bankruptcy for Borrowers Who Have Run Out of Options:** The Obama administration will seek careful changes to personal bankruptcy provisions so that bankruptcy judges can modify mortgages written in the past few years when families run out of other options.

THE WHITE HOUSE

Washington

February 18, 2009

- ***How Judicial Modification Works:*** When an individual enters personal bankruptcy proceedings, his mortgage loans in excess of the current value of his property will now be treated as unsecured. This will allow a bankruptcy judge to develop an affordable plan for the homeowner to continue making payments. To receive judicial modifications in bankruptcy, homeowners must first ask their servicers/lenders for a modification and certify that they have complied with reasonable requests from the servicer to provide essential information. *This provision will apply only to existing mortgages under Fannie Mae and Freddie Mac conforming loan limits, so that millionaire homes don't clog the bankruptcy courts.*
- ***Bolster FHA and VA Authority to Protect Investors and Ensure Loan Modifications Occur:*** Legislation will provide the FHA and VA with the authority they need to provide partial claims in the event of bankruptcy or voluntary modification so that holders of loans guaranteed by the FHA and VA are not disadvantaged.

E. Strengthening FHA Programs and Providing Support for Local Communities

- ***Ease Restrictions in Federal Housing Administration Programs, Including Hope for Homeowners:*** The Hope for Homeowners program offers one avenue for struggling borrowers to refinance their mortgages. In order to ensure that more homeowners participate, the FHA will reduce fees paid by borrowers, increase flexibility for lenders to modify troubled loans, permit borrowers with higher debt loads to qualify, and allow payments to servicers of the existing loans.
- ***Strengthening Communities Hardest Hit by the Financial and Housing Crises:*** As part of the recovery plan signed by the President, the Department of Housing and Urban Development will award \$2 billion in competitive Neighborhood Stabilization Program grants for innovative programs that reduce foreclosure. Additionally, the recovery plan includes an additional \$1.5 billion to provide renter assistance, reducing homelessness and avoiding entry into shelters

3. Support Low Mortgage Rates By Strengthening Confidence in Fannie Mae and Freddie Mac:

- ***Ensuring Strength and Security of the Mortgage Market:*** Today, using funds already authorized in 2008 by Congress for this purpose, the Treasury Department is increasing its funding commitment to Fannie Mae and Freddie Mac to ensure the strength and security of the mortgage market and to help maintain mortgage affordability.
 - ***Provide Forward-Looking Confidence:*** The increased funding will enable Fannie Mae and Freddie Mac to carry out ambitious efforts to ensure mortgage affordability for responsible homeowners, and provide forward-looking confidence in the mortgage market.
 - Treasury is increasing its Preferred Stock Purchase Agreements to \$200 billion each from their original level of \$100 billion each.

THE WHITE HOUSE

Washington

February 18, 2009

- ***Promoting Stability and Liquidity:*** In addition, the Treasury Department will continue to purchase Fannie Mae and Freddie Mac mortgage-backed securities to promote stability and liquidity in the marketplace.
- ***Increasing The Size of Mortgage Portfolios:*** To ensure that Fannie Mae and Freddie Mac can continue to provide assistance in addressing problems in the housing market, Treasury will also be increasing the size of the GSEs' retained mortgage portfolios allowed under the agreements – by \$50 billion to \$900 billion – along with corresponding increases in the allowable debt outstanding.
- ***Support State Housing Finance Agencies:*** The Administration will work with Fannie Mae and Freddie Mac to support state housing finance agencies in serving homebuyers.
- ***No EESA or Financial Stability Plan Money:*** The \$200 billion in funding commitments are being made under the Housing and Economic Recovery Act and **do not use any money from the Financial Stability Plan or Emergency Economic Stabilization Act/TARP.**

THE WHITE HOUSE

Washington

February 18, 2009

Support Under the Homeowner Affordability and Stability Plan: Three Cases

Family A: Access to Refinancing

- **In 2006:** Family A took a 30-year fixed rate mortgage of \$207,000 on a house worth \$260,000 at the time. (The family put just over 20% down.) They received a Fannie Mae conforming loan with an interest rate of 6.50%.
- **Today:** Family A has about \$200,000 remaining on their mortgage but their home value has fallen 15 percent to \$221,000.
 - Their “loan-to-value” ratio is now 90%, **making them ineligible for a Fannie Mae refinancing.**
- **Under the Refinancing Plan:** Family A can refinance to a rate of 5.16%. **This would reduce their annual payments by nearly \$2,350.**

	Existing Mortgage	Refinancing
Balance	\$199,584	\$203,575
Remaining Years	27	30
Interest Rate	6.50%	5.16%
Monthly Payment	\$1,308	\$1,113
Savings	<i>\$196 per month, \$2,347 per year</i>	

Family B: Access to Refinancing

- **In 2006:** Family B took a 30-year fixed rate mortgage of \$350,000 on a house worth \$475,000 at the time. (The family put just over 26% down.) They received a Fannie Mae conforming loan with an interest rate of 6.50%.
- **Today:** Family B has about \$337,460 remaining on their mortgage but their home value has fallen to \$400,000.
 - Their “loan-to-value” ratio is now 84%, **making them ineligible for a Fannie Mae refinancing.**
- **Under the Refinancing Plan:** Family B can refinance to a rate of 5.16%. **This would reduce their annual payments by nearly \$4,000.**

	Existing Mortgage	Refinancing
Balance	\$337,460	\$344,210
Remaining Years	27	30
Interest Rate	6.50%	5.16%
Monthly Payment	\$2,212	\$1,882
Savings	<i>\$331 per month, \$3,968 per year</i>	

THE WHITE HOUSE

Washington

February 18, 2009

Family C: Eligible for Homeowner Stability Initiative

- **In 2006:** Family C took out a 30-year subprime mortgage of \$220,000, on a house worth \$230,000 at the time (they put less than 5% down). Their mortgage broker – Mom & Pop Mortgage – sold their loan to Investment Bank. The interest rate on their mortgage is 7.5%.
- **Today:** Family C has \$214,016 remaining on their mortgage but their home value has fallen -18% to \$189,000. Also, in November, one parent in Family C was moved from full-time to part-time work, causing a significant negative shock to their income.
 - Their loan is now 113% the value of their home, making them “underwater” and unable to sell their house.
 - Meanwhile, their monthly mortgage payment is \$1,538 and their monthly income has fallen to \$3,650, meaning the ratio of their monthly mortgage debt to income is 42%.
- **Under the Homeowner Stability Initiative:** Family C can get a government sponsored modification that – for five years – will reduce their mortgage payment by \$406 a month. After those five years, Family C’s mortgage payment will adjust upward at a moderate, phased-in level.

	Existing Mortgage	Loan Modification
Balance	\$213,431	\$213,431
Remaining Years	27	27
Interest Rate	7.50%	4.42%
Monthly Payment	\$1,538	\$1,132
Savings:	<i>\$406 per month, \$4,870 per year</i>	

Homeowner Stability Initiative: How the Program Works for the Lender, Government and Borrower

- First, Investment Bank (working through a mortgage servicer) **reduces the interest rate so that the Family C’s monthly debt-to-income ratio drops** from 42% to 38%. This means that Investment Bank must reduce the interest rate from 7.50% to 6.38%, bringing down Family C’s monthly payment from \$1,538 to \$1,387.
- Second, the government and Investment Bank **share the cost of further reducing the interest rate** so that the Family C’s monthly debt-to-income level is lowered to 31%. Any dollar the bank spends is matched by the government. At this stage, Family C’s interest rate is reduced from 6.41% to 4.43%. In total, Family C’s monthly payment has fallen from \$1,538 to \$1,132.
- If Family C remains current on their payments, they will receive **incentive payments** up to \$1,000 a year, or \$5,000 over five years, that would go towards reducing the principal they owe. Additionally, the mortgage servicer can earn an up-front incentive fee of \$1,000, plus up to \$1,000 per year in “Pay for Success” fees for three years, so long as Family C remains current.

Questions and Answers for Borrowers about the Homeowner Affordability and Stability Plan

Borrowers Who Are Current on Their Mortgage Are Asking:

1. What help is available for borrowers who stay current on their mortgage payments but have seen their homes decrease in value?

Under the Homeowner Affordability and Stability Plan, eligible borrowers who stay current on their mortgages but have been unable to refinance to lower their interest rates because their homes have decreased in value, may now have the opportunity to refinance into a 30 or 15 year, fixed rate loan. Through the program, Fannie Mae and Freddie Mac will allow the refinancing of mortgage loans that they hold in their portfolios or that they placed in mortgage backed securities.

2. I owe more than my property is worth, do I still qualify to refinance under the Homeowner Affordability and Stability Plan?

Eligible loans will now include those where the new first mortgage (including any refinancing costs) will not exceed 105% of the current market value of the property. For example, if your property is worth \$200,000 but you owe \$210,000 or less you may qualify. The current value of your property will be determined after you apply to refinance.

3. How do I know if I am eligible?

Complete eligibility details will be announced on March 4th when the program starts. The criteria for eligibility will include having sufficient income to make the new payment and an acceptable mortgage payment history. The program is limited to loans held or securitized by Fannie Mae or Freddie Mac.

4. I have both a first and a second mortgage. Do I still qualify to refinance under the Homeowner Affordability and Stability Plan?

As long as the amount due on the first mortgage is less than 105% of the value of the property, borrowers with more than one mortgage may be eligible to refinance under the Homeowner Affordability and Stability Plan. Your eligibility will depend, in part, on agreement by the lender that has your second mortgage to remain in a second position, and on your ability to meet the new payment terms on the first mortgage.

5. Will refinancing lower my payments?

The objective of the Homeowner Affordability and Stability Plan is to provide creditworthy borrowers who have shown a commitment to paying their mortgage with affordable payments that are sustainable for the life of the loan. Borrowers whose mortgage interest rates are much higher than the current market rate should see an immediate reduction in their payments. Borrowers who are paying interest only, or who have a low introductory rate that will increase in the future, may not see their current payment go down if they refinance to a fixed rate. These borrowers, however, could save a great deal over the life of the loan. When you submit a loan application, your lender will give you a "Good Faith Estimate" that includes your new interest rate, mortgage payment and the amount that you will pay over the life of the loan. Compare this to your current loan terms. If it is not an improvement, a refinancing may not be right for you.

Questions and Answers for Borrowers about the Homeowner Affordability and Stability Plan

Borrowers Who Are Current on Their Mortgage Are Asking (Continued):

- 6. What are the interest rate and other terms of this refinance offer?**
The objective of the Homeowner Affordability and Stability Plan is to provide borrowers with a safe loan program with a fixed, affordable payment. All loans refinanced under the plan will have a 30 or 15 year term with a fixed interest rate. The rate will be based on market rates in effect at the time of the refinance and any associated points and fees quoted by the lender. Interest rates may vary across lenders and over time as market rates adjust. The refinanced loans will have no prepayment penalties or balloon notes.
- 7. Will refinancing reduce the amount that I owe on my loan?**
No. The objective of the Homeowner Affordability and Stability Plan is to help borrowers refinance into safer, more affordable fixed rate loans. Refinancing will not reduce the amount you owe to the first mortgage holder or any other debt you owe. However, by reducing the interest rate, refinancing should save you money by reducing the amount of interest that you repay over the life of the loan.
- 8. How do I know if my loan is owned or has been securitized by Fannie Mae or Freddie Mac?**
To determine if your loan is owned or has been securitized by Fannie Mae or Freddie Mac and is eligible to be refinanced, you should contact your mortgage lender after March 4, 2009.
- 9. When can I apply?**
Mortgage lenders will begin accepting applications after the details of the program are announced on March 4, 2009.
- 10. What should I do in the meantime?**
You should gather the information that you will need to provide to your lender after March 4, when the refinance program becomes available. This includes:
- Information about the gross monthly income of all borrowers, including your most recent pay stubs if you receive them or documentation of income you receive from other sources
 - Your most recent income tax return
 - Information about any second mortgage on the house
 - Payments on each of your credit cards if you are carrying balances from month to month, and payments on other loans such as student loans and car loans

Questions and Answers for Borrowers about the Homeowner Affordability and Stability Plan

Borrowers Who Are at Risk of Foreclosure Are Asking:

- 1. What help is available for borrowers who are at risk of foreclosure either because they are behind on their mortgage or are struggling to make the payments?**
The Homeowner Affordability and Stability Plan offers help to borrowers who are already behind on their mortgage payments or who are struggling to keep their loans current. By providing mortgage lenders with financial incentives to modify existing first mortgages, the Treasury hopes to help as many as 3 to 4 million homeowners avoid foreclosure regardless of who owns or services the mortgage.
- 2. Do I need to be behind on my mortgage payments to be eligible for a modification?**
No. Borrowers who are struggling to stay current on their mortgage payments may be eligible if their income is not sufficient to continue to make their mortgage payments and they are at risk of imminent default. This may be due to several factors, such as a loss of income, a significant increase in expenses, or an interest rate that will reset to an unaffordable level.
- 3. How do I know if I qualify for a payment reduction under the Homeowner Affordability and Stability Plan?**
In general, you may qualify for a mortgage modification if (a) you occupy your house as your primary residence; (b) your monthly mortgage payment is greater than 31% of your monthly gross income; and (c) your loan is not large enough to exceed current Fannie Mae and Freddie Mac loan limits. Final eligibility will be determined by your mortgage lender based on your financial situation and detailed guidelines that will be available on March 4, 2009.
- 4. I do not live in the house that secures the mortgage I'd like to modify. Is this mortgage eligible for the Homeowner Affordability and Stability Plan?**
No. For example, if you own a house that you use as a vacation home or that you rent out to tenants, the mortgage on that house is not eligible. If you used to live in the home but you moved out, the mortgage is not eligible. Only the mortgage on your primary residence is eligible. The mortgage lender will check to see if the dwelling is your primary residence.
- 5. I have a mortgage on a duplex. I live in one unit and rent the other. Will I still be eligible?**
Yes. Mortgages on 2, 3 and 4 unit properties are eligible as long as you live in one unit as your primary residence.
- 6. I have two mortgages. Will the Homeowner Affordability and Stability Plan reduce the payments on both?**
Only the first mortgage is eligible for a modification.

Questions and Answers for Borrowers about the Homeowner Affordability and Stability Plan

Borrowers Who Are at Risk of Foreclosure Are Asking (Continued):

7. I owe more than my house is worth. Will the Homeowner Affordability and Stability Plan reduce what I owe?

The primary objective of the Homeowner Affordability and Stability Plan is to help borrowers avoid foreclosure by modifying troubled loans to achieve a payment the borrower can afford. Lenders are likely to lower payments mainly by reducing loan interest rates. However, the program offers incentives for principal reductions and at your lender's discretion modifications may include upfront reductions of loan principal.

8. I heard the government was providing a financial incentive to borrowers. Is that true?

Yes. To encourage borrowers who work hard to retain homeownership, the Homeowner Affordability and Stability Plan provides incentive payments as a borrower makes timely payments on the modified loan. The incentive will accrue on a monthly basis and will be applied directly to reduce your mortgage debt. Borrowers who pay on time for five years can have up to \$5,000 applied to reduce their debt by the end of that period.

9. How much will a modification cost me?

There is no cost to borrowers for a modification under the Homeowner Affordability and Stability Plan. If you wish to get assistance from a HUD-approved housing counseling agency or are referred to a counselor as a condition of the modification, you will not be charged a fee. Borrowers should beware of any organization that attempts to charge a fee for housing counseling or modification of a delinquent loan, especially if they require a fee in advance.

10. Is my lender required to modify my loan?

No. Mortgage lenders participate in the program on a voluntary basis and loans are evaluated for modification on a case-by-case basis. But the government is offering substantial incentives and it is expected that most major lenders will participate.

11. I'm already working with my lender / housing counselor on a loan workout. Can I still be considered for the Homeowner Affordability and Stability Plan?

Ask your lender or counselor to be considered under the Homeowner Affordability and Stability Plan.

12. How do I apply for a modification under the Homeowner Affordability and Stability Plan?

You may not need to do anything at this time. Most mortgage lenders will evaluate loans in their portfolio to identify borrowers who may meet the eligibility criteria. After March 4 they will send letters to potentially eligible homeowners, a process that may take several weeks. If you think you qualify for a modification and do not receive a letter within several weeks, contact your mortgage servicer or a HUD-approved housing counselor. Please be aware that servicers and counseling agencies are expected to receive an extraordinary number of calls about this program.

Questions and Answers for Borrowers about the Homeowner Affordability and Stability Plan

Borrowers Who Are at Risk of Foreclosure Are Asking (Continued):

13. What should I do in the meantime?

You should gather the information that you will need to provide to your lender on or after March 4, when the modification program becomes available. This includes:

- Information about the monthly gross income of your household including recent pay stubs if you receive them or documentation of income you receive from other sources
- Your most recent income tax return
- Information about any second mortgage on the house
- Payments on each of your credit cards if you are carrying balances from month to month, and
- Payments on other loans such as student loans and car loans.

14. My loan is scheduled for foreclosure soon. What should I do?

Contact your mortgage servicer or credit counselor. Many mortgage lenders have expressed their intention to postpone foreclosure sales on all mortgages that may qualify for the modification in order to allow sufficient time to evaluate the borrower's eligibility. We support this effort.
